ZERO CLEARANCE

Designed for new construction or renovation projects, the electric Zero Clearance Fireplaces are an excellent alternative choice to gas or wood fireplaces. Quick and easy installation allow for immediate enjoyment of the state of the art flame and heating system. These electric fireplaces provide an incredibly unique and efficient way of heating a room as well as providing a worry-free ambiance you won't get from a classical fireplace.

From contemporary to traditional, achieve many different looks for your fireplace by using any combination of the included EMBER or ICE decorative media, and the LED ember log set.

ZERO CLEARANCE

Sierra Flame's Flush Mount Zero Clearance series offers a perfect balance of traditional and contemporary design.

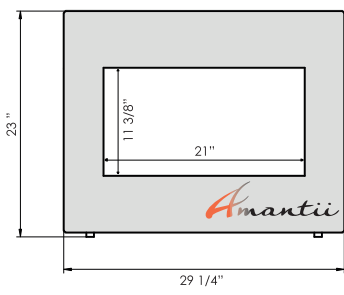

The black steel surround with overlay makes a statement in any space and the vibrant 'gradient' flame comes to life with the visually impressive traditional log set, included with your unit. A remote control conveniently adjusts the flame and brightness as you sit back and enjoy the warmth.

The Sierra Flame Zero Clearance models are excellent for zone heating and can comfortably heat 400 to 500 sq. ft. Add your own touch of style with an optional custom finish overlay.
